

Dunkbot v3 sent 79 from the span of march 1st to april 1st,
Which is 0.748886150346% of 10549 (all messages from that span EXCLUDING the dunkland)

Dunkbot v2 sent 3389
Which is 32 percent of 10549 of non dunkland messages

This is the reasoning behind the decision, v3 does nothing and has hardly any function.
I conclude that he will be kicked on May 1st with the announcement of his kicking being made on
4/26/2022

The chance to debate said issue will be on the same date.

At the very least his demotion to non special bot is certain as the aforementioned lack of messages
